# ⚠ Warning

- Before updating your wallet, please make sure you have your current wallet address passphrase in a safe and secure location
- It is your responsibility to have it copied and secured because just like any other cryptocurrency wallet, we do not have access to your wallet

# Download Guideline for Android Users

## Step 1

- Install the App wallet by clicking on the link below and downloading the app file
- [https://drive.google.com/file/d/1WC0F4fdxJnajnEqEFoBclSlg7mRs\\_E4c/view?usp=sharing](https://drive.google.com/file/d/1WC0F4fdxJnajnEqEFoBclSlg7mRs_E4c/view?usp=sharing)

## Step 2

- Click and confirm to download the app to your device.

## Step 3

- Open the downloaded file on the device and confirm the application installation.

## Step 4

- Wait for the download to finish.
- Once downloaded, click Open to access and use the application.

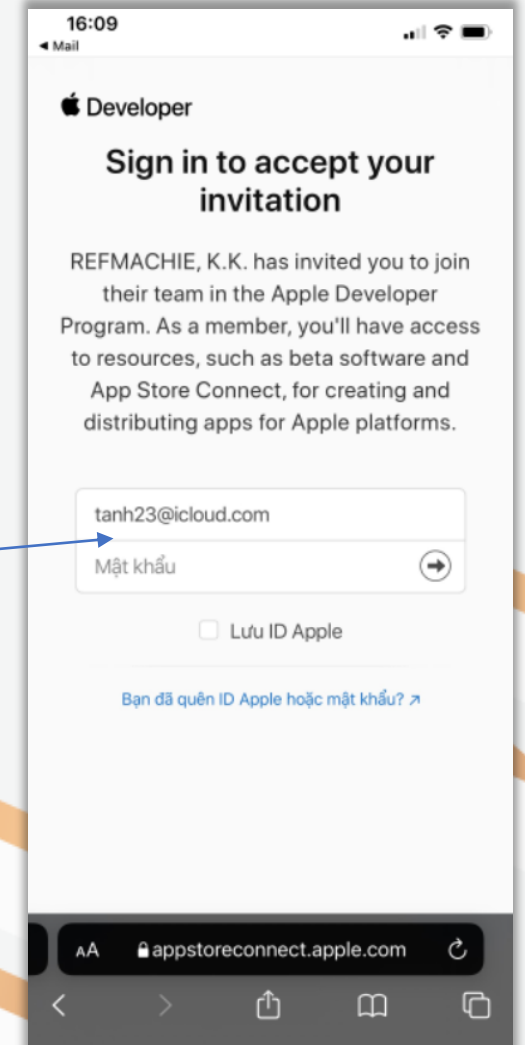

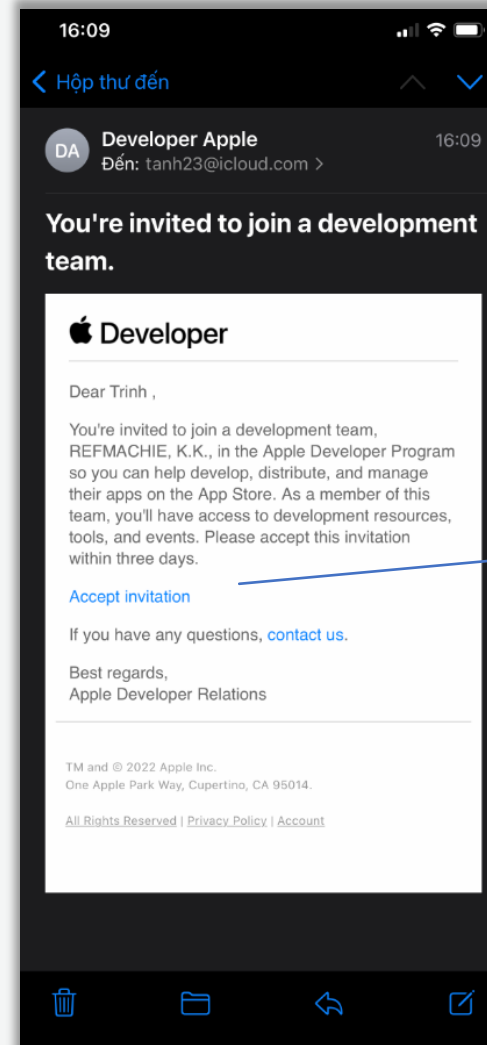

# Download Guideline for iOS Users

## Step 1

- Send a blank email to [dev@fruitsc.org](mailto:dev@fruitsc.org) from your Apple ID email address.

## Step 2

- You will receive an invitation email from FRUITS Developer.
- Click on "Accept Invitation" and open in Safari

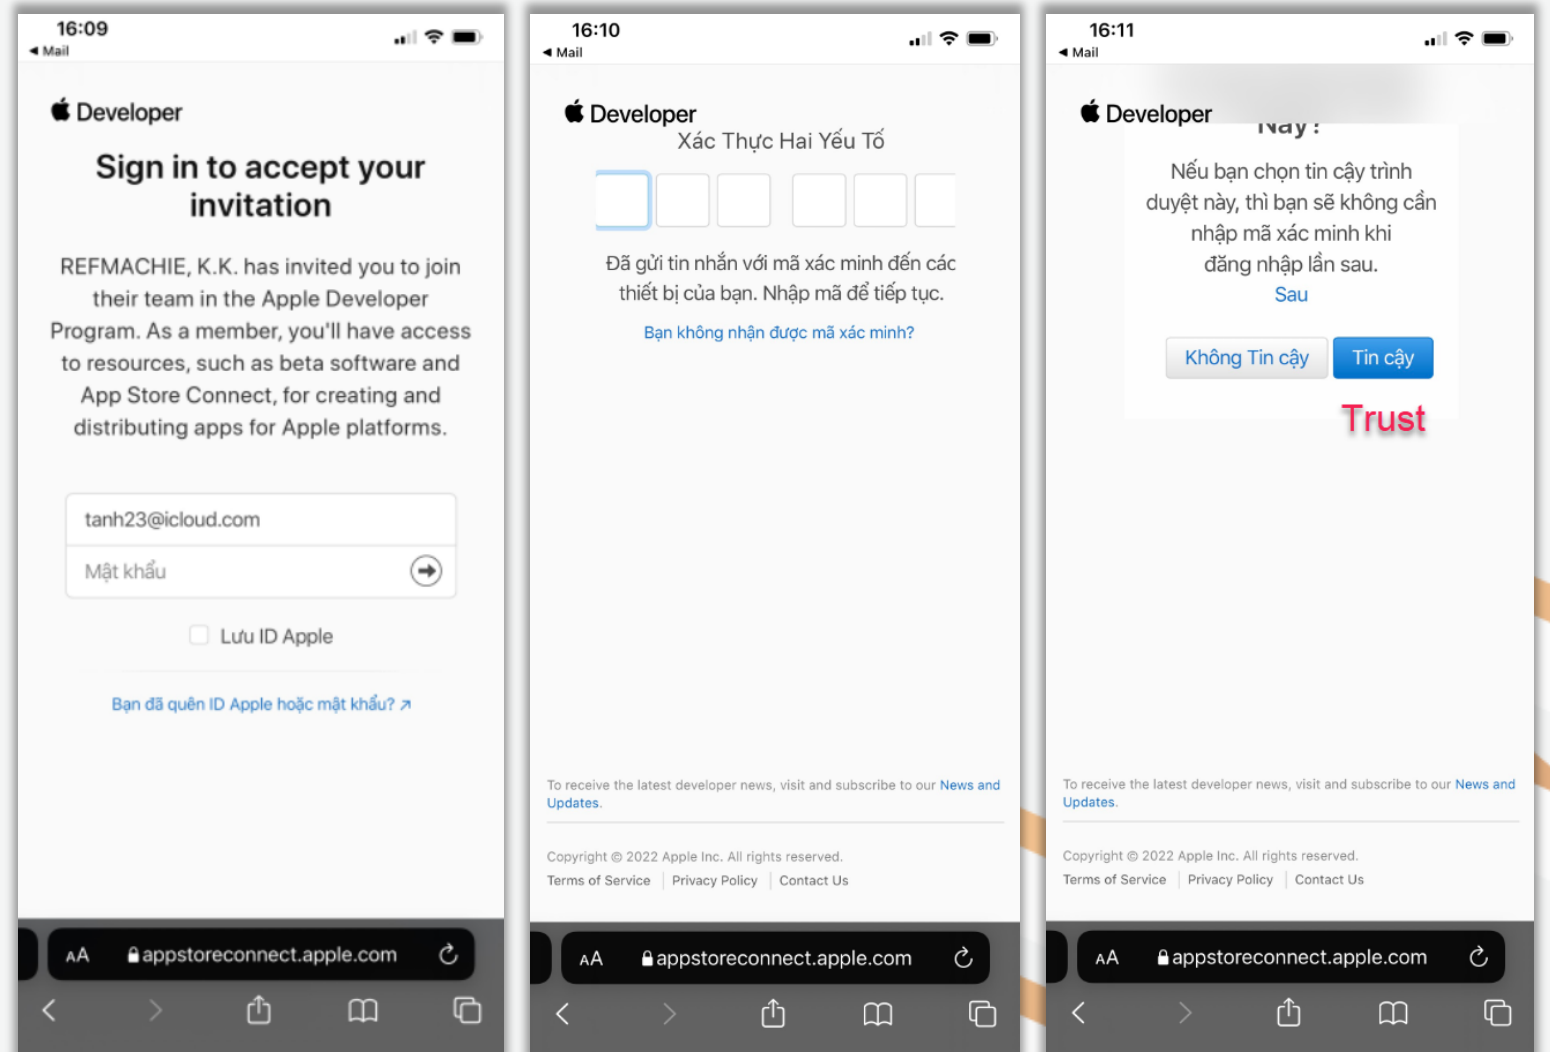

# Download Guideline for iOS Users

## Step 3

- Sign in to your iCloud/Apple ID account

## Step 4

- After logging in, you will receive a 6-digit verification code. Please enter the verification code to verify your identity. Then click "Trust"

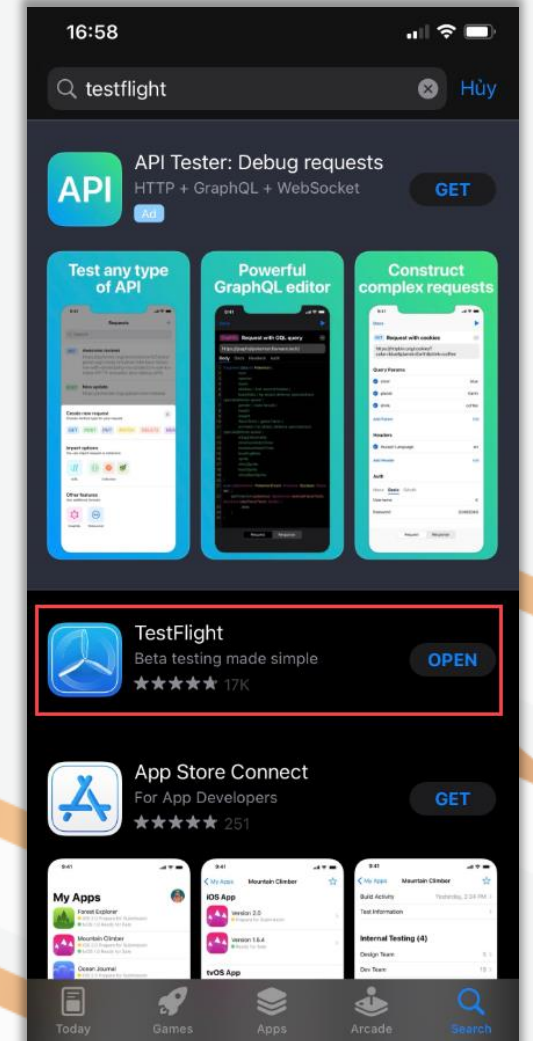

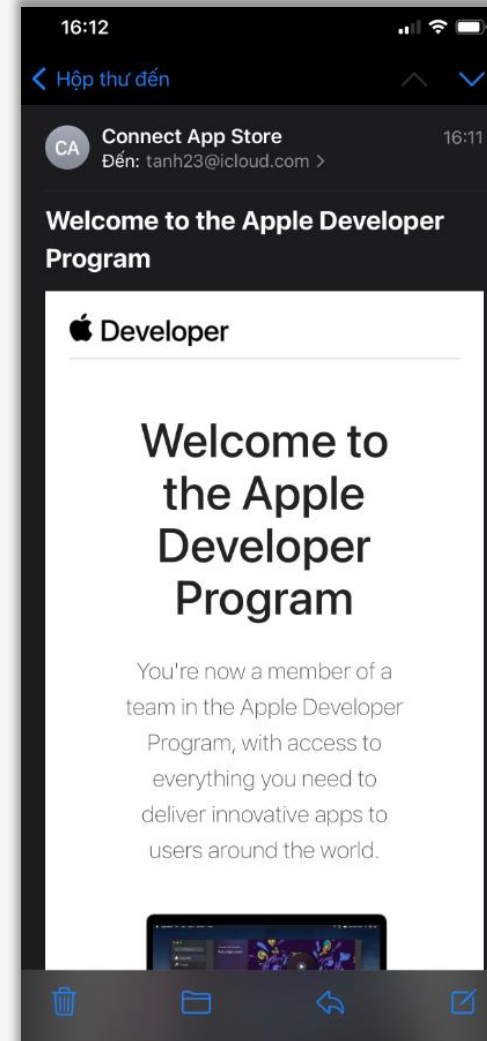

# Download Guideline for iOS Users

## Step 5

- After signing in, you will receive a confirmation letter "Welcome to the Apple Developer Program".

## Step 6

- Go to the app store and download the "TestFlight" app

# Download Guideline for iOS Users

## Step 7

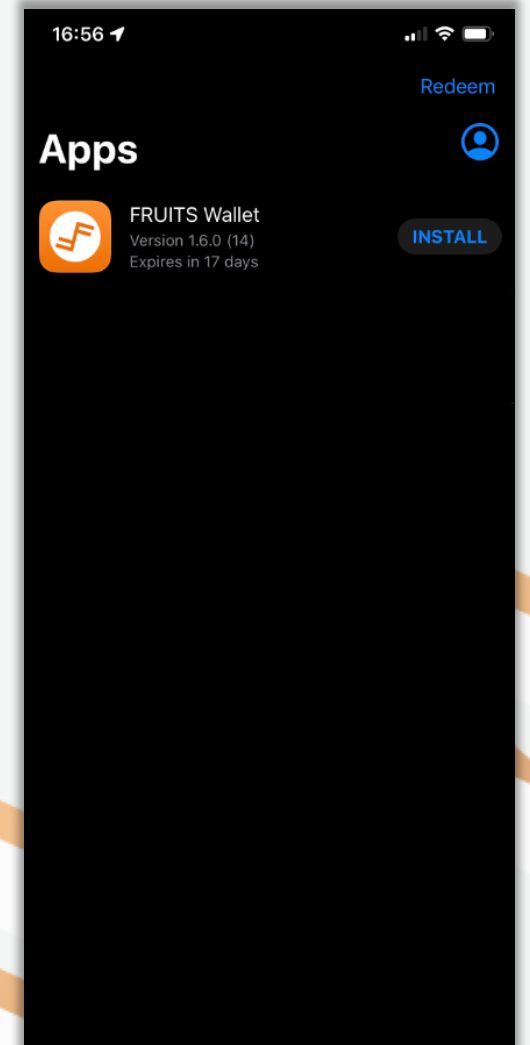

- Wait for FRUITS Developer to provide you access to the Fruits Wallet Beta, which will be available in your TestFlight account

## Step 8

- Once given access to the update, open your TestFlight app and click “Install” to download “FRUITS Wallet” App.

## Step 9

- Create a NEW Fruits Multi-Coin Wallet Address

# Update Explanation

- This update divides the Fruits Wallet Addresses into 2 types
  - 1) FRUITS-Only Wallet
  - 2) FRUITS Multi-Coin Wallet
- The old wallet address will automatically become a “FRUITS-Only Wallet”, so if you are a user who is logged out from their account then please make sure to import your FRUITS-Only Wallet.
- Users are also required to “create account” in order to have access to the new FRUITS Multi-Coin Wallet where you will be able to have access to Bitcoin (BTC) & Ethereum (ETH)

# Creating a Fruits Mutli-Coin Wallet Address

## Step 1

- Select “Privacy Policy”
- Links to pageview: <https://www.fruitsc.org/privacy-policy/>

## Step 2

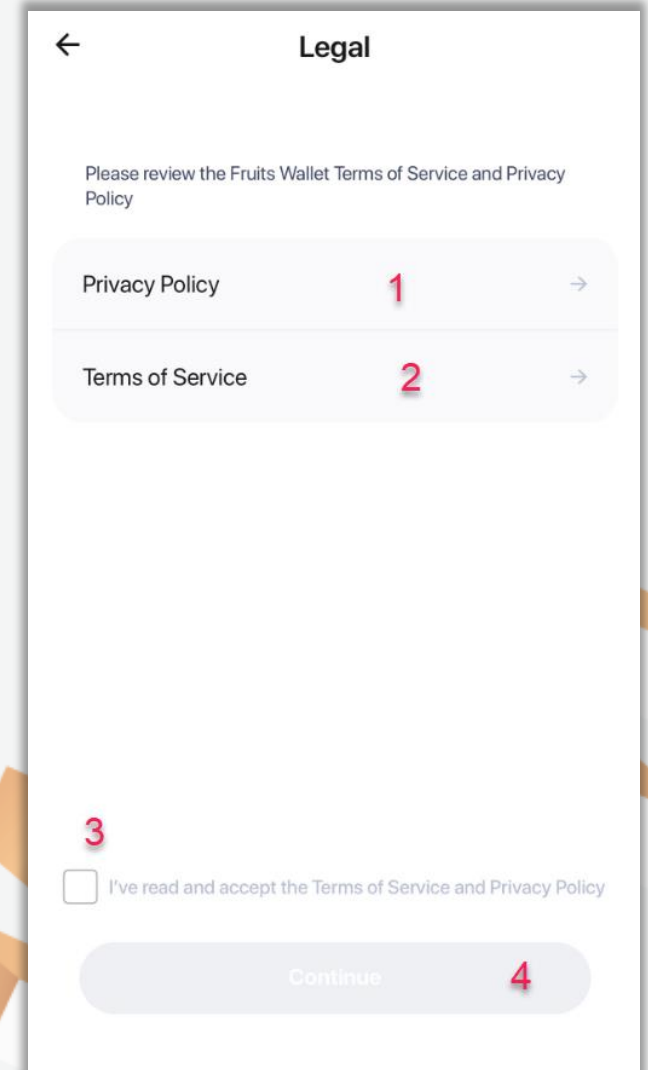

- Select “Term of Service”
- Links to pageview: <https://www.fruitsc.org/Terms-Service/>

## Step 3

- Select checkbox: I've read accept Terms of Service and Privacy Policy.

## Step 4

- Select the “Continue” button ⇒ Redirect to the “Your passphrase” screen
- \* The “Continue” button is only enabled when the Checkbox “I've read accept Terms of Service and Privacy Policy” is checked.

# Your Passphrase

## Step 1

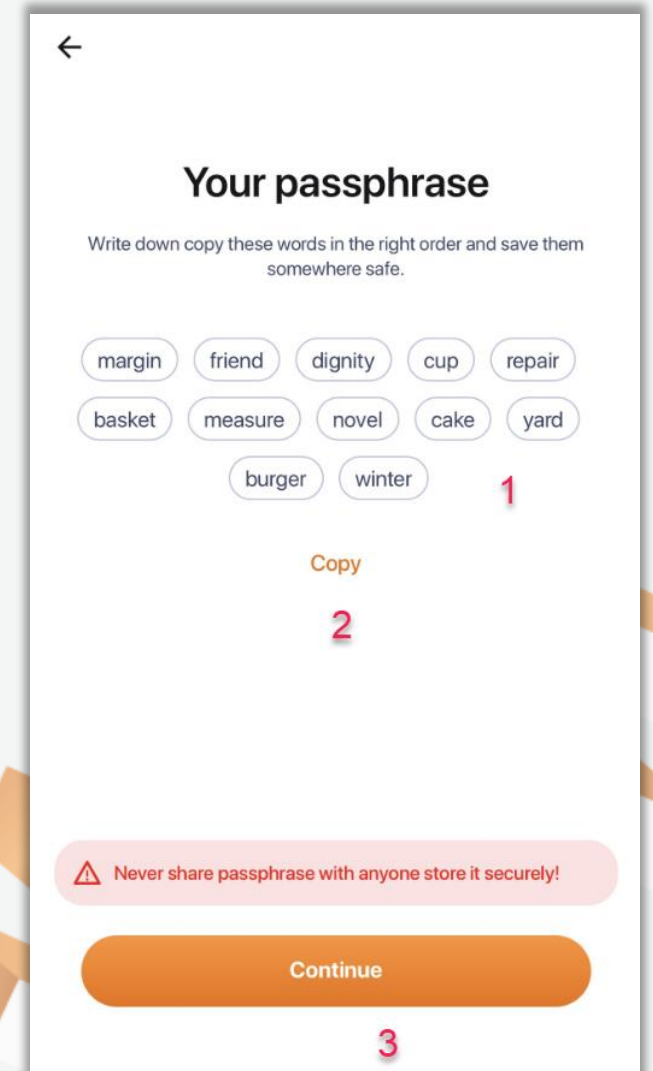

- The system will generate a "Passphrase"
- Note the "Passphrase" somewhere safe and secure

## Step 2

- Click on "Copy" ⇒ Copy "Passphrase" to Your device's clipboard.

## Step 3

- Click on "Continue" button ⇒ Redirect to the "Verify Passphrase" screen.

# Verify Passphrase

## Step 1

- The passphrase words from the previous page will be displayed
- Choose the words and enter your passphrase in the order created in the previous page

## Step 2

- Click on “Continue” button ⇒ Create account successfully ⇒ Redirect to the “Home” screen.
- The “Continue” button is only enabled when entering the correct Passphrase.
